Short description

As an Executive Producer/UPM I lead and manage the production of Film/TV/Commercial projects between Europe and North America. I come from South Tyrol, but I have built a solid network of international film investors and partners and a deep knowledge of the cultural, legal and logistical aspects of cross-border productions. I develop strategies to finance international film projects in South Tyrol and have a proven track record of successful productions across multiple media platforms and budgets.

Education

Period			Institution/Location
