Short description

5 years of training, 6 moves, and 3 continents. That is how one can sum up the last few years of my life, pursuing a dream that I am not willing to sacrifice even for a permanent job at the municipality; following my heart.

Mine is an education that starts from the world of film and more specifically from the cinema of reality. My specialization is editing, which I have combined with a video-making activity linked to the musical universe; from music and more generally from sounds my reality takes shape.
