Short description

I graduated from hotel management school in Bruneck. Currently, I am working in the hotel industry. Working with and for people has always been exciting for me. Alongside, my interest in creative work has always been in focus. Since I can remember, film has always interested me: A creative world, for which I feel both affection and fascination. By an internship I want to discover about the work on set and production. I am purposeful and committed and I am willing to accept new challenges, whether locally or abroad.
