Short description

I am Setareh and I come from Iran. Since 2016 I have been living in Bolzano and I graduated in Music from the Conservatory. I always was interested to follow my other dreams. because of that I participated in an FSE course (Video Maker/Editing) that was offered by the province of Bozen. after that i did my internship/Stage with professional Marina Baldo. I collaborated with her on other projects and also other groups that were here in Bozen and Trento. I want to grow up and learn more about this career.
