Short description

I graduated in an international master's course in Cinema Studies at the University of Roma Tre, Stockholm University and Université Sorbonne Nouvelle with a grade of 110 cum laude, where I shot "L'Intabilité d'Erasmus". I attended the Cinemadamare summer campus, where I had the opportunity to shoot several short films in various locations, learning how to use DaVinci Resolve. My independent short films are "The Mind Trap", where I won an award for best editing, and "Shells", a co-directing with a pre-production win for best screenplay.
